### About

I am a skilled MERN stack developer with a strong focus on creating dynamic and responsive web applications. Leveraging expertise in MongoDB, Express.js, React.js, and Node.js, I build efficient and scalable solutions tailored to user needs. With a solid background in front-end and back-end development, I excel in delivering high-quality, user-centric applications and thrive in collaborative, fast-paced environments.

### Professional Experience

#### MERN stack developer | Intern

##### The Baap Company

16 August 2022 - present

- Developed and maintained dynamic web applications: Utilized the MERN stack (MongoDB, Express.js, React.js, Node.js) to build and enhance applications tailored to client specifications.
- Front-End Development: Designed and implemented responsive and interactive user interfaces with React.js. Integrated third-party APIs and managed application state using Redux to ensure seamless user experiences and efficient data handling.
- Back-End Services: Engineered robust backend services with Express.js and Node.js. Developed RESTful APIs for data retrieval and manipulation, optimized server performance, and ensured secure and scalable application architecture.
- Database Management: Leveraged MongoDB for efficient data storage and retrieval. Designed and optimized database schemas to support application needs and improve data query performance.

### Skills & Competencies

#### Front-End Technologies

React.js

HTML5/CSS3

JavaScript (ES6+)

#### Back-End Technologies

Node.js

Express.js

#### Database Technologies

MongoDB

#### Version Control & Collaboration

Git/GitHub

#### Soft Skills

Problem-Solving

Project Management

Communication

### Education

#### Higher Secondary Certificate (HSC)

Pune University

2022

---

#### Bachelor of Computer Applications

Mysore University

Present
